It is stronger than all other main door locks and includes 6 safety features to prevent CROWBAR ATTACK / BURGLARY

- ✔ 2mm thick "ANTI TEAR" RECEPTACLE with flanging on holes to enhance breaking load.
- ✔ "ANTI-THEFT" STRENGTHENING PLATE enhances wood frame strength.
- ✔ Specially designed heavy duty "ANTI RIP" SCREWS to enhance strength.
- ✔ 6 Stainless Steel/Brass "ANTI BEND" BOLTS for strength and anti-rust having best in class mechanism.
- ✔ Lockable "ANTI BURGLARY" knob for preventing unauthorised entry & exit.

AB : Antique Brass

SN : Satin Nickel

**Dimple Key Features**

- Duplication : Virtually Impossible
- Mfg. : Computerised CNC M/c
- Combinations : Millions
- Security : 14 Locking Pins
- Accuracy : Unpickable
- Material : Nickel Silver
- Technology : III Generation

Increases the strength of wooden door frames against crowbar attack by a burglar, in normal condition, the wooden frame breaks as shown in image during theft. Fixing this **ANTI THEFT STRENGTHENING PLATE** on the door frame with 75mm ANTI RIP screws, gives huge breaking strength to the wooden frame, and prevents wooden frame from chipping off.

The Lock and Receptacle withstands minimum 3 ton breaking force as certified by ARAI, PUNE which is 6 times more than an ordinary main door lock. This ensures high security which helps to prevent theft, thus assuring peace of mind.

Specifications may change in view of continuous innovations.  
Note : FFS Applicable only if Lock purchased from Local AUTHORISED DEALER.
