**ANTI THEFT
STRENGTHENING
PLATE**

Increases the strength of wooden door frames against crowbar attack by a burglar, in normal condition, the wooden frame breaks as shown in image during theft. Fixing this ANTI THEFT STRENGTHENING PLATE on the door frame with 75mm ANTI RIP screws, gives huge breaking strength to the wooden frame, and prevents wooden frame from chip off.

NOT INSTALLED

INSTALLED

It is stronger than all other
main door locks and includes
**6 safety features to prevent
CROWBAR ATTACK / BURGLARY**

- ✓ 2mm thick "ANTI TEAR" RECEPTACLE with flanging on holes to enhance breaking load.
- ✓ "ANTI THEFT" STRENGTHENING PLATE enhances the strength of wooden frame.
- ✓ Specially designed heavy duty extra long "ANTI RIP" SCREWS to prevent chipping of the door frame.
- ✓ 6 Stainless Steel/Brass "ANTI BEND" LOCKING BOLTS for strength & Anti-rust. Best in class locking mechanism.
- ✓ SMART KEY with iFBM technology for highest security & to prevent key duplication.
- ✓ Lockable "ANTI BURGLAR" knob for preventing unauthorised entry & exit.

Variable 6 axes Locking with
Interlocking Floating Ball Mechanism

4th Generation iFBM Technology with inbuilt intelligence. Which provides an extremely high level of security.

An ordinary identical Dimple key without these Floating Balls CANNOT open this lock.

WITHSTANDS

The Lock and Receptacle withstands minimum 3 ton breaking force as certified by ARAI, PUNE which is 6 times more than an ordinary main door lock. This ensure high security which helps to prevent theft, thus assuring peace of mind.

1st time in INDIA
